

Rebul

1895

finest eau de cologne

RENEWING ITSELF FOR 119 YEARS

With its unique quality and 119 years of experience, Rebul is an elite and prestigious perfume producer.

Rebul Pharmacy was founded in Istanbul, Beyoglu with the name "Grande Pharmacie Parisienne - Grand Paris Pharmacy" in 1895 by Jean Cesar Reboul. The historic place that has witnessed the late period of the Ottoman Empire is the only pharmacy still open in its original address, today. In its early years, the pharmacy made its mark in Turkish medicine when it started preparing medical formulations prescribed by doctors. Via word of mouth Rebul quickly became well - known in the medical community.

Kemal Müderrisoğlu, one of the first pharmacists in the history of the Republic of Turkey started working for Monsieur Reboul in 1920. Showing remarkable and exemplary accomplishments, Müderrisoğlu and Monsieur Reboul's relationship continued for many years, like father and son.

In 1938, at the lab in the basement of the pharmacy the first Lavender Cologne is manufactured. Lavender Cologne introduced lavender to Turkish people for the first time and over the century; it became the permanent resident of many Turkish homes.

In the year 1939, Monsieur Reboul went back to his homeland and left his pharmacy, the apple of his eye, to young and hardworking Kemal Müderrisoğlu who was his only living akin, at the time.

The pharmacy's name then changed to Rebul. Rebul Lavender Cologne soon became the cologne of Istanbul's gentlemen and especially Pera's men. In time, Rebul Lavender became much more than cologne. It became a unique legacy passed on from fathers to sons. In 1981, Rebul Lavender Cologne was granted a gold medal by the International Beauty Products Quality Control Center.

With its unique line of colognes, Rebul reinforces the true meaning of cologne. Delivering exquisite perfumes that appeal to every generation and taste, Rebul has become the leading perfume manufacturer in Turkey.

Having witnessed a century, Rebul has always been a brand that valued and protected its legacy while constantly renewing itself. Well-known in global markets with its Rebul, Colors, Angie and Ranger brands, Rebul Cosmetics has export operations in over 30 countries.

Following global packaging and fragrance trends closely, Rebul perfumes promise top quality at affordable prices. The company's priority is to develop distinguished products that will add value to its customers.

Marking the history of fragrance in Turkey since 1895, Rebul will continue to enrich its legacy through its rich line of products, its quality and environmental awareness.

Rebul

1895

finest eau de cologne

1895

The whole story began in a small lab at the basement of Rebul pharmacy.

Rebul eau de cologne's most distinguishing feature which makes it indispensable for 119 years is its raw material.

1938

In 1938, Jean Cesar Reboul and Kemal Müderrisoğlu introduced Rebul's famous Lavender Cologne to Turkish people.

The alcohol used in our eau de colognes is produced from sugar canes which are best known for being the source of richest alcohol.

After distillation process, alcohol rests in stainless steel boilers for twenty days hence making Rebul's eau de colognes so special.

1940

Rebul Lavender Cologne soon became the signature cologne of Istanbul's gentlemen.

2014

Rebul's story beginning in Beyoğlu continues to develop through its export operations in 52 countries in 4 continents and its partnership with major brands.

Rebul eau de colognes are cooled and drained with a narrow pores filters before being bottled.
